

Y12 Summer Work: Creative Media 2024

Produce a short film about your Summer.

This can be in any style of film making but you are making a film that tells the story of your summer.

You can do this by taking on the film as:

- Poetic.
- Expository.
- Observational.
- Participatory.
- Reflexive.
- Performative.

<https://www.docfilmacademy.com/blog/narration-style>

The film should be a minimum of 5 minutes long and have the following features

- Start (introduction)
- Middle – the main elements of your story – could be multiple scenes
- End – this wraps it all and ties it together

You can use any editing software that you like – but capcut might be a good starting point.

<https://www.capcut.com/>

Think about camera angles, sounds, adding music, adding text.

Really consider how you want the viewer to feel when they watch you film.
