

# Launceston College

*A Multi Academy Trust*

## Health and Safety Policy

<b>Adopted</b>	<b>February 2022</b>
<b>Ratified by</b>	<b>Finance and Assets committee</b>
<b>Status</b>	<b>Ratified</b>
<b>Review period</b>	<b>Annually</b>
<b>Review date</b>	<b>February 2023</b>

## Statement of intent

The board of Launceston College Multi-Academy Trust ('Trust') committed to the health and safety of our staff, students, pupils and visitors. Ensuring the safety of our community is of paramount importance and this policy reflects our dedication to creating a safe learning environment.

We are committed to:

- Providing a productive and safe learning environment.
- Preventing accidents and any work-related illnesses.
- Compliance with all statutory requirements.
- Minimising risks via assessment and policy.
- Providing safe working equipment and ensuring safe working methods.
- Including all staff and representatives in health and safety decisions.
- Monitoring and reviewing our policies to ensure effectiveness.
- Setting high targets and objectives to develop the school's culture of continuous improvement.
- Ensuring adequate welfare facilities are available throughout our school.
- Ensuring adequate resources are available to address health and safety issues, so far as is reasonably practicable.

## 1. Legal framework

This policy has due regard to all relevant legislation including, but not limited to, the following:

- Health and Safety at Work etc. Act 1974
- The Workplace (Health, Safety and Welfare) Regulations 1992
- The Management of Health and Safety at Work Regulations 1999
- The Control of Substances Hazardous to Health Regulations 2002
- The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 2013
- The Construction (Design and Management) Regulations 2015
- The Personal Protective Equipment at Work Regulations 1992
- The Education (School Premises) Regulations 1999
- The Ionising Radiation Regulations 2017 (IRR17)
- The Food Information (Amendment) (England) Regulations 2019 (Natasha's Law)

This policy has due regard to national guidance including, but not limited to, the following:

- DfE (2018) 'Health and safety: responsibilities and duties for schools'
- DfE (2017) 'Safe storage and disposal of hazardous materials and chemicals'
- HSE (2014) 'Sensible health and safety management in schools'

## 2. Roles and responsibilities

The Trustees delegate responsibility for Health and Safety to the Finance and Assets committee and in conjunction with the Health and Safety Team, will:

- Ensure they provide a safe place for all users of the site including staff, pupils and visitors.
- Oversee that staff receive training and instruction so that they can perform their duties in a healthy and safe manner.
- Ensure whole-school familiarity with the requirements of the appropriate legislation and codes of practice.
- Create and monitor a management structure responsible for health and safety in the school.
- Ensure there is a detailed and enforceable policy for health and safety, and that the policy is implemented by all.
- Assess the effectiveness of the policy and ensure any necessary changes are made annually.
- Identify the risks relating to possible accidents and injuries and make reasonable adjustments to prevent them occurring.
- Ensure the school has secured safe means of entry and exit for all site users.
- Ensure the school can provide equipment, grounds and systems of work which are safe.
- Ensure safe arrangements are made for the handling, storage and transportation of any articles and substances.
- Ensure staff have safe and healthy working conditions that comply with statutory requirements, codes of practice and guidance.

- Where necessary, ensure the school can provide protective equipment and clothing, along with any necessary guidance and instruction for safe use.
- Review this policy and its effectiveness annually.
- Set the direction for effective health and safety management.
- Designate a competent person who will be responsible for ensuring the school meets its health and safety duties.

The School Improvement monitoring group (local governing board) will:

- monitor the whole-school familiarity with the requirements of the appropriate legislation and codes of practice.
- monitor the management structure responsible for health and safety in the school.
- monitor to ensure that the policy is implemented by all.
- Monitor the effectiveness of the policy and suggest changes are made.
- Identify risks relating to possible accidents and injuries and suggest reasonable adjustments to prevent them occurring.
- Ensure the school has secured safe means of entry and exit for all site users.
- Ensure the school can provide equipment, grounds and systems of work which are safe.
- Ensure safe arrangements are made for the handling, storage and transportation of any articles and substances.
- Ensure staff have safe and healthy working conditions that comply with statutory requirements, codes of practice and guidance.
- Where necessary, ensure the school can provide protective equipment and clothing, along with any necessary guidance and instruction on use.

The Principal will:

- Have overall responsibility for the day-to-day development and implementation of safe working practices and conditions for all staff, pupils and visitors.
- Introduce management systems and practices that ensure risks are dealt with sensibly, responsibly and proportionately.
- Take all reasonably practicable steps to ensure this policy is implemented by the heads of the appropriate departments and other members of staff.

All members of staff will:

- Take reasonable care of their own health and safety, and that of others who may be affected by what they do at work.
- Cooperate with their employers on health and safety matters.
- Carry out their work in accordance with training and instructions.
- Inform the employer of any work situation representing a serious and immediate danger, so that remedial action can be taken.
- Familiarise themselves with the Health and Safety Policy and aspects of their work related to health and safety.
- Avoid any conduct which puts themselves or others at risk.
- Be familiar with all requirements laid down by the governing board.

- Ensure that all staff, pupils and visitors are applying health and safety regulations and adhering to any rules, routines and procedures in place.
- Ensure all machinery and equipment is in good working order and safe to use, including adequate guards. They will also not allow improper use of such equipment.
- Use the correct equipment and tools for the job and any protective clothing supplied.
- Ensure any toxic, hazardous or flammable substances are used correctly, and stored and labelled as appropriate.
- Report any defects in equipment or facilities to the relevant site team.
- Take an interest in health and safety matters, and suggest any changes that they feel are appropriate.
- Make suggestions as to how the school can reduce the risk of injuries, illnesses and accidents.
- Exercise good standards of housekeeping and cleanliness.
- Adhere to their common law duty to act as a prudent parent would when in charge of pupils.

### **3. Construction and maintenance of the premises**

When undertaking construction or maintenance work, the school will do so in accordance with The Construction (Design and Management) (CDM) Regulations 2015. The installation, commission, maintenance, repair or removal of mechanical, electrical, gas, compressed, air, hydraulic, telecommunications, computer or similar services which are normally fixed within or to a structure.

The Estates Manager will ensure that all construction and maintenance projects have a formally appointed principal designer and principal contractor. The principal contractor draws up a Construction Phase Plan that explains how health and safety risks will be managed – permission will not be given for construction or maintenance work to begin until this is in place.

### **4. Training**

The school will ensure that staff members are provided with the health and safety training they need for their job. This may not mean attendance at training courses; it may simply involve providing staff with basic instructions and information about health and safety in the school.

Staff members will be provided with regular training opportunities and have access to support where needed. Staff members are expected to undertake appropriate CPD in order to further contribute to the running and success of the school. Staff will be trained on how to assess risks specific to their role.

### **5. First aid**

The school will act in accordance with the First Aid Policy at all times. The school will ensure that ample provision is made for both trained personnel and first-aid equipment on-site.

### **6. Contacting the emergency services and PEEP requirements**

The Principal will certify that procedures for ensuring safety precautions are properly managed are discussed, formulated and effectively disseminated to all staff.

Staff will be aware of any pupils who have specific evacuation needs, a PEEP must be done for any student or member of staff who have a condition that would make safe evacuation a problem. Information and forms can be obtained from the health and safety co-ordinator. Staff will be responsible for the safety of pupils and responding to any questions from the emergency services, as best they can.

## **7. Fire safety**

All staff members fully understand and effectively implement the Fire Evacuation Plan.

The Principal is responsible for certifying that procedures for ensuring that safety precautions are properly managed, will be discussed, formulated and effectively disseminated to all staff. Staff will receive fire safety training to ensure they understand the importance of fire drills.

The school will test evacuation procedures on a termly basis. Firefighting equipment will be checked on an annual basis by an approved contractor. Fire alarms will be tested weekly from different 'break glass' fire points around the school, and records will be maintained and held in the site office.

The evacuation of visitors and contractors will be the responsibility of the person they are visiting or working for.

## **8. Accident reporting**

All accidents and incidents, including near-misses or dangerous occurrences, will be reported as soon as possible to the health and safety coordinator.

## **9. Significant accidents**

Significant accidents, as defined in the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 2013, will be reported to the HSE at the earliest opportunity.

The health and safety coordinator will be responsible for informing the Principal if the accident is fatal or a 'major injury', as outlined by the HSE.

## **10. Reporting procedures**

Should an incident require reporting to the Incident Control Centre (ICC) (part of the HSE), the health and safety coordinator, or a person appointed on their behalf, will file a report as soon as is reasonably possible. The person will complete the relevant report on the HSE website: <http://www.hse.gov.uk/riddor/report.htm>. The HSE no longer accepts written accident reports, except for in exceptional circumstances. The school will report all accidents and injuries online where possible using the above web address. Fatal and specified injuries, as outlined in section 9, may only be reported using the telephone service on 0845 300 9923, open Monday to Friday 8.30am to 5pm.

## **11. Reporting hazards**

Staff, pupils, contractors and visitors have a legal duty to report any condition or practice they deem to be a hazard. In most cases, reporting should be conducted verbally to the site supervisor/team as soon as possible, who will then inform the Principal as appropriate.

If this is not possible report to the Health and Safety team using [healthandsafety@launcestoncollegemat.org.uk](mailto:healthandsafety@launcestoncollegemat.org.uk)

## **12. Accident investigation**

All accidents, however minor, will be investigated and the outcomes recorded. The length of time dedicated to each investigation will vary depending on the seriousness of the accident. After an investigation takes place, a risk assessment will be carried out, or the existing assessment amended, to avoid reoccurrence of the accident.

The health and safety coordinator will undertake evaluations of all reported incidents. They will then identify patterns and trends in order to take corrective action and minimise the reoccurrence of any incident/illness.

## **13. Our active monitoring system**

It is good practice to actively monitor systems prior to accidents, ill health or incidents taking place; this involves regularly checking compliance procedures and the achievement of objectives. Our procedure for actively monitoring our system includes:

- Annual audits, including fire risk assessments and health and safety audits.
- Continuous examination of documents to ensure compliance with standards.
- Continuous inspection of premises, plants and equipment as per best practices.
- External measures, such as surveys by contractors and service providers, along with visits from Environmental Health and Ofsted.

## **14. Evacuation, invacuation and lock down.**

The school will follow the procedure outlined in the Emergency Evacuation Plan in the event of a crisis. In the event of a fire, the Fire Evacuation Plan will be implemented.

The invacuation, evacuation and lockdown procedure will be implemented if a situation dictates this.

## **15. Visitors to the school**

The procedures outlined in the Visitor Policy and the Contractors Policy will be implemented by relevant staff when receiving visitors to the school.

All visitors and contractors will sign in to reception. Once signed in, visitors and contractors will be collected from reception by the member of staff they are visiting, or escorted to the area of the school concerned. Temporary teaching staff and assistants will inform reception of their presence by reporting to reception on arrival and signing the visitors' log.

No contractor will carry out work on the school site without the express permission of the Estates Manager, other than in an emergency or to make the site safe following theft or vandalism. Contractors will be responsible for the health and safety of their employees and for ensuring safe working practices. They will not constitute a hazard to staff, pupils or visitors to the school.

Anyone hiring the premises will be made aware of their health and safety obligations when making the booking by the Lettings Manager.

Visitors and contractors will wear a visitor's badge at all times while on school grounds.

Staff members who encounter an unidentifiable visitor will enquire if they require assistance and direct them to reception or off site. Staff members who encounter uncooperative visitors threatening violence, refusing to leave the site, or carrying out physical or verbal abuse will seek immediate help.

## **16. Personal protective equipment (PPE)**

PPE means all equipment worn, or held, by staff or pupils which is designed to protect them from specific hazards. The school will provide employees and pupils who are exposed to a hazard at the school, which cannot be controlled by other means, with PPE. All staff and pupils will be provided with protective eyewear in all workshops and laboratories. Visitors will also be supplied with PPE when appropriate.

Staff and pupils will use the PPE provided, and care for it according to the instructions and training given. The PPE will fit the wearer properly. Where more than one item of PPE must be worn, they should be compatible and remain effective. PPE will not be worn if the hazard is caused by wearing it that is greater than the hazard it is intended to protect the wearer from. Pupils will report any loss or defects to their class teacher, who will report it to the appropriate person.

PPE includes laboratory and workshop equipment, such as tool box tools, protective clothing, safety footwear and face masks, PE equipment, ICT equipment, photocopiers and other office equipment, lifting equipment, and respiratory protective equipment. Clothing that is not specifically designed to preserve the health and safety of the wearer does not constitute as PPE, e.g. school uniform.

Staff will receive health and safety training in order to ensure they know how to properly use, maintain and store PPE, and how to detect and report faults. Equipment manuals are readily available and warning signs are clearly displayed in areas, and on equipment, where PPE is mandatory. Staff and pupils can expect that any equipment they use is suitable for its intended use and is properly maintained.

## **17. Maintaining equipment**

When not in use, PPE will be properly stored, kept clean, and in good repair. Suitably qualified service contractors will maintain and inspect all relevant equipment on sites. This will include the following:

- All electrical appliances
- All fixed gymnasium equipment
- Any workshop equipment, e.g. lathes and kilns
- All fume cupboards

## **18. Hazardous materials**

The school will only purchase hazardous materials from a reputable source, making sure that the relevant material safety data sheet (MSDS) is provided by the retailer on delivery. The school will only order supplies of hazardous materials when existing stocks are no longer adequate, and in quantities that are no larger than necessary. No chemicals or other hazardous materials will be used without the permission of the headteacher.

All equipment, materials and chemicals will be held in appropriate containers and areas conforming to health and safety regulations. Hazardous substances will be labelled with the correct hazard sign and contents label. Storage life will be considered by department leaders. All COSHH and ionising radiations regulations will be adhered to.

Low-toxic products, such as corrective fluid and aerosol paints, will be stored securely and only used under supervision in a well-ventilated area. Dust and fumes will be safely controlled by local exhaust ventilation equipment.

No staff member or pupil should ever be put at risk through exposure to any hazardous substance used in our practical curriculum. Where a substance has a workplace exposure limit, control measures will ensure that exposure is below the limit.

Unwanted or surplus chemicals and materials, including those that have become unsafe, will be disposed of by a registered waste carrier, in accordance with school procedures.

## **19. Asbestos management**

In accordance with HSE guidance, an asbestos survey is undertaken annually if a site requires it.

Further details concerning the management of asbestos can be found in the Asbestos Management Plan held for sites with asbestos present.

## **20. Medicine and drugs**

The school's Supporting Pupils with Medical Conditions Policy will be read, understood and adhered to at all times.

The school will obtain notification from parents regarding any medication that pupils are required to take. Only trained staff will administer medication. Staff will receive guidance in supporting pupils with medical conditions. The school's first aid policy will be followed at all times. A record will be kept of any medication that pupils take – this will be checked prior to administering any non-prescription medication.

## **21. Housekeeping and cleanliness**

Cleaners will be monitored by the site cleaning manager. The standard required will be clear in the service level agreement held with any contracted cleaners. Special consideration will be given to hygiene areas.

Waste collection services will be monitored by the site supervisor. Special consideration will be given to the disposal of laboratory materials and clinical waste.

## **22. Infection control**

The school actively prevents the spread of infection through the following measures:

- Routine immunisation are carried out by contracted medical services.
- Maintaining high standards of personal hygiene and practice
- Maintaining a clean environment

The school employs good hygiene practices in the following ways:

- Displaying posters throughout the school, encouraging all pupils, staff members and visitors to wash their hands after using the toilet, before eating or handling food, after touching animals, and following any other actions that increase the risk of the spread of infection, such as coughing or sneezing
- Ensuring there is sufficient liquid soap, warm water and paper towels available for everyone to wash their hands throughout the school
- Employing cleaners to carry out thorough and frequent cleaning that follows national guidance
- Providing PPE where necessary
- Immediately cleaning any spillages of bodily fluids with a combination of detergent and disinfectant, and always wearing PPE. Mops will not be used to clean up body fluid spillages; instead, paper towels will be used and discarded properly, following the procedures for clinical waste
- Washing all laundry in a separate dedicated facility and washing any soiled linens separately
- Hygienically bagging any pupils' soiled clothing to go home and never rinsing it by hand
- Storing all clinical waste in clinical waste bags and in a secure, dedicated area, before it is removed by a registered waste contractor
- Providing a secure sharps bin, out of reach of pupils, for the disposal of sharps.
- Discouraging pupils, staff members and visitors from touching any stray animals that may come onto the school premises

Staff and pupils displaying signs of infection, such as rashes, vomiting, diarrhoea, etc., will be sent home and recommended to see a doctor. All cuts and abrasions will be covered with hypoallergenic dressings.

All new staff are subject to a pre-employment health questionnaire before starting employment at the school.

The school keeps up-to-date with national and local immunisation scheduling and advice. All pupils' immunisation status is checked at school entry and at the time of any vaccination. The school encourages parents to have their children immunised.

The school will ensure that arrangements are in place to minimise any pupil health risks, e.g. flu, by ensuring hygiene standards are maintained.

Wall-mounted hand sanitiser is available around the school.

Further information concerning our policies and procedures addressing infection control can be found in our Infection Control Policy.

## **23. Allergens and anaphylaxis**

Parents are required to provide the school with up-to-date information relating to their children's allergies, as well as the necessary action to be taken in the event of an allergic reaction, such as any medication required. Staff members are also required to provide a list of their allergies. Information regarding pupils' and staff members' allergies is collated and stored securely.

The Principal and catering team will ensure that all pre-packed foods for direct sale (PPDS) made on the school site meet the requirements of Natasha's Law, i.e. the product displays the name of the food and a full, up-to-date ingredients list with allergens emphasised, e.g. in bold, italics or a different colour.

The catering team will also work with any external catering providers to ensure all requirements are met and that PPDS is labelled in line with Natasha's Law. Further information relating to how the school operates in line with Natasha's Law can be found in the Whole-School Food Policy.

Staff members receive appropriate training and support relevant to their level of responsibility, in order to assist pupils with managing their allergies. First aid will alert the catering team and food technology staff about any student who has a known allergy.

## **24. Risk assessment**

The Principal has overall responsibility for ensuring potential hazards are identified and risk assessments are completed for all areas in the school.

Risk assessments will be conducted for all other areas of the school and reviewed as appropriate by the Health and Safety coordinator. Risk assessments will consider the needs of staff, pupils, visitors and contractors. Risk assessments will identify all defects and potential risks along with the necessary solutions or control measures.

Risk assessments will be reviewed if:

- There is any reason to suspect that they are no longer valid.
- There has been a significant change in related matters.
- The governing board will be informed of risk assessments, allowing issues to be prioritised and actions to be authorised, along with funds and resources.

A designated staff member will ensure risk assessments are completed by staff leading day trips or residential stays.

## **25. Slips and trips**

In line with HSE guidance, control measures are in place to effectively control slip and trip risks. The school utilises the following procedure:

- Identify the hazards – risk factors considered include:
  - Environmental (floor, steps, slopes, etc.)
  - Contamination (water, food, litter, etc.)
  - Organisational (task, safety, culture, etc.)
  - Footwear (footwear worn for evening events may not be in line with the school's Uniform Policy)
  - Individual factors (rain, supervision, pedestrian behaviour, etc.)
- Decide who might be harmed and how
- Consider the risks and decide if existing precautions are sufficient, or if further measures need to be introduced
- Record the findings
- Review the assessment regularly and revise if necessary

## **26. Security and theft**

CCTV systems will be used to monitor events and identify incidents taking place. CCTV systems may be used as evidence when investigating reports of incidents.

Staff and pupils are responsible for their personal belongings and the school accepts no responsibility for loss or damage. Thefts may be reported to the police and staff members are expected to assist police with their investigation.

All members of staff are expected to take reasonable measures to ensure the security of school equipment being used. Missing or believed stolen equipment will be reported immediately to a senior staff member.

The school will install access control and security measures to ensure the safety of the school, e.g. security glazing on windows. The school will ban individuals from the premises if they pose a risk to any member of the school community. The school will consider any risks that are posed by their local context, e.g. recent arson attacks.

## **27. Severe weather**

The school will act in accordance with the Adverse Weather Procedure relevant to each site.

## **28. Safe use of minibuses**

Health and safety policy and procedures concerning school minibuses are contained in the school's Minibus Policy. The site supervisor is responsible for arranging the annual maintenance of the minibus, including MOTs and road tax.

The minibus will carry strictly one person per seat and seat belts will be worn at all times.

Fines accrued will be paid by the driver at the time the offence was committed.

## **29. School trips and visits**

Health and safety policy and procedures concerning school trips and visits, including trips abroad, are contained in the school's Educational Trips and Visits Policy.

## **30. Manual handling**

Manual handling can prove hazardous when it has the potential to cause a musculoskeletal disorder. This can be due to repetition of the action, the force and/or posture involved in the completion of a handling task, and/or a person's ability to hold or grasp the particular item in a safe and balanced manner. In order to manage these risks, we have adopted policies and procedures.

## **31. Working at heights**

Policy and procedures concerning employees working at heights are addressed in the Working at Heights Policy. Staff members are required to sign statements confirming that they have received, read and understood the policy, prior to being allowed to work at heights.

## **32. Lone working**

Policy and procedures concerning employees' lone working are addressed in the Lone Working Policy. Staff members are required to sign statements confirming that they have received, read and understood the relevant policies, prior to being allowed to undertake lone working.

## **33. Stress management**

Staff will be made aware of the symptoms of stress, including sleeping problems, dietary problems, mood swings, feeling lethargic, fatigue, emotional problems, chest pains and elevated heart rate, lack of focus, inability to concentrate and increased sweating. Staff members who suffer from any of these symptoms are advised to consult their GP as soon as possible. All staff wellbeing matters are managed in line with the Staff Wellbeing Policy.

## **34. Display equipment**

Display screen assessments will be carried out by the health and safety coordinator for staff who regularly use laptops or desktops computers. Further policy and procedures concerning display equipment are addressed in the Display Screen Equipment (DSE) Policy monitoring and review

The effectiveness of this policy will be monitored continually by the governing board.

The school will establish a monitoring system that is backed up by performance measures and this will be reviewed following an incident.
